

MICHAEL ANDERSON

COST CONTROL MANAGER

PROFILE

Results-driven Cost Engineering Specialist with over 10 years of experience in the manufacturing sector. My background encompasses cost control, pricing strategies, and supply chain optimization. I have a proven track record of enhancing profit margins through meticulous cost analysis and strategic sourcing. Adept at working with cross-functional teams, I leverage data-driven insights to inform pricing models and cost-saving initiatives.

EXPERIENCE

COST CONTROL MANAGER

Global Manufacturing Corp

2016 - Present

- Managed cost control processes for multiple manufacturing plants, achieving a 12% reduction in operational costs.
- Implemented a comprehensive cost tracking system that improved visibility into production expenses.
- Developed and maintained standard cost models for various product lines, enhancing pricing accuracy.
- Led cross-departmental workshops to identify cost-saving opportunities, resulting in \$1 million in savings.
- Analyzed variances between actual costs and budgets, providing actionable insights to management.
- Coordinated with procurement to optimize supplier contracts, reducing material costs by 10%.

COST ENGINEER

Innovative Solutions LLC

2014 - 2016

- Developed cost estimates for new product lines, contributing to successful launch strategies.
- Conducted financial analysis to support pricing decisions, increasing profitability by 15%.
- Collaborated with engineering teams to ensure cost-effective design solutions.
- Facilitated cost review meetings with stakeholders to ensure alignment on financial performance.
- Utilized ERP systems for data analysis, improving forecasting accuracy.
- Generated regular reports on cost performance metrics for senior management review.
