

MICHAEL ANDERSON

LEAD COST ESTIMATOR

PROFILE

Innovative and analytical Cost Estimator specializing in the oil and gas industry, with comprehensive experience in cost forecasting and risk analysis. Expertise in leveraging advanced statistical methodologies to assess project costs and ensure the financial viability of large-scale operations. Proficient in collaborating with engineering teams to refine project scopes and enhance estimating accuracy.

EXPERIENCE

LEAD COST ESTIMATOR

Oilfield Innovations Inc.

2016 - Present

- Led cost estimation efforts for multi-million dollar oil exploration projects.
- Utilized data analytics to forecast project costs and identify financial risks.
- Collaborated with cross-functional teams to optimize project planning.
- Developed cost control strategies to minimize expenditures and enhance profitability.
- Conducted market research to inform cost estimation processes.
- Presented detailed cost analysis reports to executive management.

COST ANALYST

Global Energy Solutions

2014 - 2016

- Assisted in preparing cost estimates for energy infrastructure projects.
- Analyzed historical data to improve estimating accuracy.
- Supported project managers in budget development and tracking.
- Reviewed contracts to ensure compliance with estimating standards.
- Participated in risk assessment meetings to evaluate project feasibility.
- Created cost databases to streamline future estimating efforts.
