- Received the Cybersecurity Excellence Award in 2021.
- Implemented a digital evidence management system that reduced processing time by 40%.

PROFILE

Innovative Crime Scene Investigator specializing in digital forensics and cybercrime investigations. Over eight years of experience in the intersection of technology and criminal justice, adept at uncovering digital evidence from electronic devices and networks. Demonstrates a profound understanding of legal standards related to digital evidence, ensuring compliance during investigations. Proven ability to analyze and interpret complex data sets, leading to actionable insights for law enforcement.

EXPERIENCE

DIGITAL CRIME SCENE INVESTIGATOR

Cyber Crime Division

2016 - Present

- Conducted investigations into cybercrimes, including hacking, identity theft, and online fraud.
- Utilized specialized software to recover deleted files and analyze digital evidence.
- Collaborated with IT professionals to secure networks during ongoing investigations.
- Prepared detailed forensic reports for law enforcement and legal proceedings.
- Presented findings in court, providing expert testimony on digital evidence.
- Developed training materials for law enforcement on digital evidence handling.

FORENSIC ANALYST

National Cybersecurity Agency

2014 - 2016

- Analyzed cyber incidents and prepared reports for intelligence assessments.
- Conducted vulnerability assessments on critical infrastructure systems.
- Engaged in cross-agency collaboration to share intelligence and investigative techniques.
- Assisted in the development of incident response protocols.
- Provided expert advice on cybersecurity measures to prevent future incidents.
- Participated in public awareness campaigns regarding cyber threats.
