EDUCATION

Bachelor of Science in Agricultural Science

University of Nebraska
2016-2020

SKILLS

- Data Science
- Crop Management
- Data Visualization
- Field Assessments
- Research Methodologies
- Stakeholder Collaboration

LANGUAGES

- English
- Spanish
- French

A highly analytical Crop Production Monitoring Analyst with over 5 years of experience in agricultural data science and crop management. Proven ability to harness data analytics to drive improvements in crop production and sustainability. Skilled in using advanced technologies and methodologies to monitor crop health and optimize inputs. Strong communicator with a focus on collaborating with farmers and agricultural experts to implement evidence-based practices.

WORK EXPERIENCE

Data Analyst in Agriculture   2020-2023

FarmLogix Solutions

- Analyzed crop production data to identify areas for improvement.
- Utilized data visualization tools to present findings to stakeholders.
- Collaborated with farmers to implement best practices based on data insights.
- Conducted field assessments to monitor crop health.
- Developed reports on crop performance metrics for management.
- Participated in training sessions on data interpretation.

Research Intern   2019-2020

AgriFuture Institute

- Assisted in data collection for agricultural research projects.
- Conducted literature reviews on sustainable agricultural practices.
- Analyzed data to support research conclusions.
- Prepared presentations for research findings.
- Engaged with local farmers to share insights from research.
- Contributed to the development of research publications.

ACHIEVEMENTS

- Increased crop yield by 10% through data-driven recommendations.
- Recognized for outstanding contributions during internship.
- Published findings in an agricultural science journal.
