As a committed Crop Protection Scientist with 9 years of experience in agronomy and pest management, I have developed a comprehensive understanding of the agricultural landscape and the challenges faced by farmers. My expertise lies in enhancing crop protection strategies through rigorous research and practical applications. I have worked extensively with a variety of crops, focusing on optimizing pest control methods and improving crop resilience to pests and diseases.

## WORK EXPERIENCE

### Senior Agronomy Consultant | Farm Solutions Group

Jan 2022 – Present

- Provided expert guidance on pest management to over 100 farmers.
- Developed customized pest control plans that improved crop yields by 30%.
