SKILLS

- Field Trials
- Data Analysis
- Community Engagement
- Crop Management
- Sustainable Practices
- Research Methodology

LANGUAGES

- English
- Spanish
- French

EDUCATION

**B.S. IN AGRONOMY, STATE
UNIVERSITY, 2014**

ACHIEVEMENTS

- Increased farmer adoption of sustainable practices by 30%.
- Contributed to a research paper that received regional recognition.
- Implemented a successful outreach program impacting over 100 local farmers.

WORK EXPERIENCE

CROP RESEARCH SCIENTIST

AgroSolutions Inc.

2020 - 2025

- Designed and executed field trials for various crop varieties.
- Analyzed soil and crop data to optimize agricultural practices.
- Collaborated with farmers to implement research findings on their farms.
- Conducted workshops to educate on best management practices.
- Monitored crop health and provided recommendations to stakeholders.
- Published findings in regional agricultural newsletters.

FIELD RESEARCH ASSISTANT

Local Agriculture Research Center

2015 - 2020

- Assisted in conducting field trials and collecting data.
- Supported senior researchers in analyzing crop performance.
- Engaged with local farmers to gather feedback on research outcomes.
- Maintained accurate records of field observations and results.
- Participated in community outreach programs to promote research findings.
- Contributed to the preparation of research reports.
