- Crop management
- Soil fertility
- Pest management
- Data analysis
- Educational outreach
- Team leadership

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**MASTER OF SCIENCE IN AGRONOMY,  
STATE UNIVERSITY**

### ACHIEVEMENTS

- Recognized as Agronomist of the Year by the National Agronomy Association in 2021.
- Increased crop yields by 15% through the implementation of innovative pest management practices.
- Developed a farmer education program that significantly improved sustainable practices in the community.

### WORK EXPERIENCE

#### LEAD AGRONOMIST

AgroSolutions International

2020 - 2025

- Led a team in developing crop management plans that improved yields by an average of 20% across various farms.
- Conducted workshops on integrated pest management, decreasing pesticide reliance by 35%.
- Implemented crop rotation strategies that enhanced soil health and crop resilience.
- Analyzed agronomic data to inform decision-making, leading to more effective resource allocation.
- Collaborated with universities on research projects, contributing to advancements in crop science.
- Authored publications on best practices in agronomy, enhancing knowledge in the agricultural community.

#### CROP MANAGEMENT CONSULTANT

Farmers United Cooperative

2015 - 2020

- Provided expert advice to farmers on optimizing crop production and managing resources effectively.
- Conducted soil tests and analyses, offering tailored recommendations that improved fertility by 30%.
- Developed a network of farmers to share best practices, enhancing community collaboration.
- Facilitated training sessions on sustainable agriculture practices, increasing farmer adoption rates.
- Utilized data-driven insights to guide farmers in making informed decisions regarding crop selection.
- Assisted in grant applications for funding research initiatives focused on sustainable agriculture.
