EDUCATION

**BACHELOR OF SCIENCE IN
INFORMATION SECURITY, HEALTH
UNIVERSITY, 2014**

ACHIEVEMENTS

- Successfully led a project that improved security compliance from 60% to 90% in one year.
- Developed a security awareness program that resulted in a 50% decrease in phishing attempts.
- Received recognition from the Board of Health for contributions to improving patient data security.

PROFILE

Results-oriented Cyber Risk Analyst with a strong background in IT security and risk management, particularly in the healthcare sector. Over 7 years of experience in assessing cybersecurity vulnerabilities and implementing effective solutions to protect patient data and comply with HIPAA regulations. Skilled in using risk assessment tools and methodologies to evaluate threats to information systems and develop strategic plans to address them.

EXPERIENCE

CYBER RISK ANALYST

HealthSecure Corp.

2016 - Present

- Performed regular risk assessments to identify threats to patient data and healthcare systems.
- Developed and implemented security policies and procedures in compliance with HIPAA.
- Utilized tools such as RiskWatch and Qualys for ongoing vulnerability assessments.
- Collaborated with IT teams to ensure the security of electronic health records (EHRs).
- Provided security training sessions for healthcare staff to promote awareness and compliance.
- Achieved a 40% reduction in security breaches through enhanced training and policy implementation.

INFORMATION SECURITY ANALYST

MediTech Solutions

2014 - 2016

- Assisted in the development of a comprehensive information security program for healthcare clients.
- Conducted security audits to ensure compliance with regulatory frameworks and internal policies.
- Implemented risk management strategies that safeguarded sensitive patient information.
- Collaborated with healthcare providers to enhance security measures for telehealth services.
- Monitored security incidents and developed incident response plans for potential breaches.
- Recognized for excellence in security management and awarded 'Excellence in Service' in 2018.
