

MICHAEL ANDERSON

LEAD CYBERSECURITY ARCHITECT

PROFILE

Results-oriented Cybersecurity Architect with a strong focus on protecting financial institutions from cyber threats. With over 12 years of experience, I have honed my skills in developing and implementing security frameworks that comply with stringent regulatory requirements. My background includes extensive work in threat intelligence, risk management, and security architecture design.

EXPERIENCE

LEAD CYBERSECURITY ARCHITECT

Global Bank Corp.

2016 - Present

- Architected a comprehensive security framework that decreased phishing incidents by 40% within 6 months.
- Conducted risk assessments and vulnerability scans, resulting in the identification of over 100 critical vulnerabilities.
- Collaborated with software development teams to embed security measures into the SDLC.
- Managed a team of 8 security analysts to monitor and respond to security threats.
- Developed incident response protocols that reduced the average response time by 50%.
- Presented security findings to executive leadership, driving investment in security improvements.

CYBERSECURITY ANALYST

FinTech Solutions

2014 - 2016

- Performed security assessments and audits, ensuring compliance with PCI DSS standards.
- Utilized SIEM tools to monitor network traffic and identify potential threats.
- Assisted in the development of security policies and procedures for the organization.
- Trained staff on security best practices and awareness, achieving a 30% reduction in security incidents.
- Participated in tabletop exercises to enhance incident response capabilities.
- Provided insights for improving application security through code reviews.
