SKILLS

- Application Security
- Secure Coding
- Threat Modeling
- Vulnerability Assessment
- DevSecOps
- Automated Testing

EDUCATION

BACHELOR'S DEGREE IN COMPUTER SCIENCE, UNIVERSITY OF FLORIDA

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Winner of the 'Best Security Initiative' award in 2021.
- Reduced application vulnerabilities by 45% through a comprehensive security training program.
- Published articles on application security best practices in industry blogs.

Michael Anderson

APPLICATION SECURITY ARCHITECT

Versatile Cybersecurity Architect with a strong foundation in application security and over 9 years of experience in the tech industry. My journey began as a software developer, which has greatly informed my approach to cybersecurity. I specialize in securing web applications and APIs, working closely with development teams to embed security throughout the software development lifecycle.

EXPERIENCE

APPLICATION SECURITY ARCHITECT

Innovatech Solutions

2016 - Present

- Designed and implemented application security frameworks, reducing vulnerabilities by 60%.
- Collaborated with development teams to integrate security into the SDLC using DevSecOps practices.
- Conducted threat modeling sessions for critical applications.
- Implemented automated security testing tools, enhancing detection capabilities.
- Provided training sessions for developers on secure coding practices.
- Reviewed application code and provided security recommendations.

SOFTWARE DEVELOPER

Tech Solutions Inc.

2014 - 2016

- Developed software applications with a focus on security and performance.
- Collaborated with QA teams to ensure security requirements were met.
- Participated in code reviews, identifying security issues before deployment.
- Contributed to the development of secure APIs for mobile applications.
- Assisted in creating documentation for security protocols.
- Engaged in continuous improvement of development processes.
