Skilled Cybersecurity Auditor with a focus on educational institutions, bringing over 4 years of experience in protecting sensitive student data and ensuring compliance with FERPA regulations. My background includes conducting audits and assessments to identify security vulnerabilities in educational technology systems. I have a strong understanding of the unique challenges faced by educational institutions in maintaining data privacy and security.

WORK EXPERIENCE

Cybersecurity Auditor | EduSecure Systems   Jan 2022 – Present

- Conducted audits of educational technology systems to ensure compliance with FERPA regulations.
- Identified vulnerabilities in student data handling and recommended corrective actions.
- Collaborated with IT departments to enhance security measures for student information systems.
- Facilitated training sessions for faculty and staff on data privacy best practices.
- Implemented risk management strategies to protect sensitive student data.
- Presented audit findings to school administration, influencing policy development.

Information Security Analyst | University Security Group   Jul 2019 – Dec 2021

- Assisted in conducting risk assessments for educational information systems.
- Monitored security incidents and responded to potential threats.
- Engaged in regular reviews of security policies and procedures.
- Collaborated with various departments to ensure security best practices were followed.
- Provided security awareness training for staff on emerging cybersecurity threats.
- Participated in the development of incident response protocols for educational institutions.

SKILLS

| FERPA Compliance | Risk Assessment | Data Privacy | Security Training | Incident Response | Vulnerability Management |

EDUCATION
