# MICHAEL ANDERSON

## CLOUD SECURITY ENGINEER

Experienced Cybersecurity Engineer with a focus on cloud security and infrastructure protection, possessing a strong background in systems engineering and network security. Over the last 7 years, I have dedicated my career to fortifying cloud-based applications and services against cyber threats. My hands-on experience with various cloud service providers has equipped me with the skills to identify vulnerabilities and implement effective security measures.

## **PROFESSIONAL EXPERIENCE**

### **CloudSecure Technologies**

*Mar 2018 - Present*

#### Cloud Security Engineer

- Designed and implemented cloud security architectures for various applications.
- Conducted risk assessments for cloud deployments, identifying potential vulnerabilities.
- Automated security monitoring processes, reducing response time to incidents by 50%.
- Collaborated with development teams to integrate security into the software development lifecycle.
- Developed security policies that adhere to industry standards and best practices.
- Performed regular cloud security audits to ensure compliance and effectiveness of controls.

### **Tech Solutions Ltd.**

*Dec 2015 - Jan 2018*

#### Systems Engineer

- Administered and secured on-premise servers and network devices.
- Implemented firewalls and intrusion detection systems to protect network integrity.
- Conducted training for staff on security awareness and safe computing practices.
- Collaborated with IT teams to ensure secure configurations of all systems.
- Developed disaster recovery plans that mitigated data loss during incidents.
- Reviewed and updated security policies to align with evolving threats.

## **ACHIEVEMENTS**

- Led a project that enhanced cloud security posture, resulting in a 45% decrease in incidents.
- Received the Innovation Award for developing automated security solutions.
- Contributed to open-source security tools used by the community.
