- French

EDUCATION

**BACHELOR'S IN INFORMATION
TECHNOLOGY, TECH INSTITUTE**

ACHIEVEMENTS

- Successfully led a project that improved cloud security posture across multiple clients.
- Recognized for outstanding performance in developing cloud security strategies.
- Authored a comprehensive guide on cloud security best practices for industry publication.

WORK EXPERIENCE

CLOUD SECURITY ARCHITECT

CloudDefend Solutions

2020 - 2025

- Designed and implemented security frameworks for multi-cloud environments, enhancing data protection.
- Conducted risk assessments to identify vulnerabilities in cloud architectures.
- Collaborated with development teams to integrate security into the software development lifecycle.
- Developed policies and procedures to ensure compliance with regulatory standards.
- Provided security training for staff on best practices for cloud usage.
- Managed security incidents related to cloud services, reducing response time by 40%.

CYBERSECURITY CONSULTANT

SecureCloud Advisors

2015 - 2020

- Assessed client cloud environments to recommend security improvements.
- Developed tailored security strategies to mitigate risks in cloud deployments.
- Conducted workshops to educate clients on cloud security best practices.
- Utilized security tools to monitor and analyze cloud vulnerabilities.
- Provided ongoing support and guidance to clients on security compliance.
- Created comprehensive reports detailing security assessments and recommendations.
