SKILLS

- Application Security
- Secure Coding
- Vulnerability Assessment
- Threat Modeling
- Penetration Testing
- Software Development

EDUCATION

BACHELOR'S IN SOFTWARE ENGINEERING, CITY UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Implemented a secure coding guideline that reduced vulnerabilities in applications by 35%.
- Awarded Employee of the Month for outstanding contributions to application security.
- Contributed to an open-source security tool that gained recognition in the developer community.

Detail-oriented Cybersecurity Researcher with over 5 years of experience in application security and software development. Strong understanding of secure coding practices and vulnerability assessment techniques. Proven ability to conduct thorough security testing and provide actionable recommendations to improve software security. Skilled in collaborating with development teams to integrate security throughout the software development life cycle.

EXPERIENCE

APPLICATION SECURITY ENGINEER

SafeApps Inc.

2016 - Present

- Conducted security assessments on web and mobile applications to identify vulnerabilities.
- Collaborated with development teams to implement secure coding practices and frameworks.
- Performed penetration testing and code reviews to ensure application security.
- Developed threat models and risk assessments for new application features.
- Provided training sessions on application security best practices for developers.
- Utilized tools such as OWASP ZAP and Burp Suite for security testing.

SOFTWARE DEVELOPER

Innovative Solutions

2014 - 2016

- Designed and developed software applications while adhering to security protocols.
- Collaborated with cross-functional teams to gather requirements and deliver secure solutions.
- Participated in the entire software development lifecycle, from planning to deployment.
- Performed code reviews to ensure adherence to best practices and security standards.
- Assisted in troubleshooting and resolving security-related issues in applications.
- Engaged in continuous learning to stay updated on emerging security threats.
