MICHAEL ANDERSON

DAIRY BREEDING SPECIALIST

A results-driven Dairy Breeding Specialist with over 10 years of experience in applying genetic principles to improve dairy herd performance. Expertise in developing and implementing breeding strategies that enhance milk quality and herd longevity. Proficient in using advanced genetic evaluation tools and software to analyze herd data and make informed breeding decisions.

PROFESSIONAL EXPERIENCE

Genetic Innovations LLC

Mar 2018 - Present

Dairy Breeding Specialist

- Developed breeding plans that improved herd milk quality by 15%.
- Utilized genetic evaluation software to analyze breeding outcomes.
- Conducted on-farm assessments to determine genetic potential.
- Delivered workshops on breeding techniques for dairy producers.
- Collaborated with veterinarians to monitor herd health and genetics.
- Implemented data-driven decisions to optimize breeding efficiency.

Dairy Genetic Research

Dec 2015 - Jan 2018

Genetic Analyst

- Analyzed genetic data sets to identify high-performing bulls for breeding.
- Worked with cross-functional teams to develop breeding protocols.
- Presented findings at regional dairy meetings to share best practices.
- Engaged with producers to tailor breeding programs to their needs.
- Assisted in the development of genetic evaluation tools.
- Monitored industry trends to inform breeding strategies.

ACHIEVEMENTS

- Increased herd longevity by implementing effective breeding practices.
- Recognized for excellence in breeding program management by local dairy associations.
- Published articles in industry magazines on genetic advancements.
