PROFILE

I am a results-driven Dashboard Developer with over 4 years of experience in leveraging data visualization techniques to enhance business intelligence and reporting processes. My background in data science allows me to approach dashboard development with a strong analytical mindset, ensuring that the metrics presented are not only visually appealing but also strategically aligned with business objectives.

EXPERIENCE

DASHBOARD DEVELOPER

Insight Analytics LLC

2016 - Present

- Developed dynamic dashboards using Looker to visualize complex datasets for stakeholders.
- Engaged with business users to gather requirements and ensure dashboards met their needs.
- Implemented best practices for dashboard design and data governance.
- Automated data pipeline processes to enhance reporting speed and accuracy.
- Conducted training sessions for users to maximize dashboard utilization.
- Analyzed user feedback to continuously improve dashboard functionalities.

JUNIOR DATA ANALYST

Marketing Insights Group

2014 - 2016

- Assisted in the creation of marketing dashboards that tracked campaign performance.
- Utilized Excel and Power BI for data analysis and visualization.
- Collaborated with the marketing team to define key metrics and reporting requirements.
- Performed data cleaning and validation to ensure reporting accuracy.
- Supported senior analysts in developing ad-hoc reports for executive meetings.
- Participated in team brainstorming sessions to develop new dashboard features.
