MICHAEL ANDERSON

PUBLIC HEALTH DATA INSTRUCTOR

I am a Data Analytics Educator with a unique background in public health and data science, dedicated to improving health outcomes through data-driven education. Over the past 6 years, I have taught data analytics courses focused on public health data, allowing students to understand the importance of data in combating health crises.

PROFESSIONAL EXPERIENCE

Community Health College   *Mar 2018 - Present*
Public Health Data Instructor

- Designed and taught courses on health data analytics, enhancing student interest in public health.
- Utilized real-world public health data to create engaging course projects.
- Collaborated with local health departments to provide students with internship opportunities.
- Implemented a peer mentoring program that improved student retention rates by 30%.
- Conducted research on health data trends, integrating findings into the curriculum.
- Led community workshops on data literacy for health professionals.

Health Analytics Group   *Dec 2015 - Jan 2018*
Data Analyst in Public Health

- Analyzed public health datasets to identify trends and inform policy decisions.
- Developed dashboards that visualized data for stakeholders, enhancing communication.
- Collaborated with researchers on projects that improved public health strategies.
- Presented findings at national health conferences, raising awareness of data's role in public health.
- Mentored interns, providing guidance on data analysis techniques.
- Contributed to publications on health data analytics best practices.

ACHIEVEMENTS

- Received the 'Outstanding Educator Award' from the Public Health Association.
- Improved student project completion rates by 45% through innovative teaching methods.
- Secured grant funding for community health data initiatives.
