Michael
ANDERSON

DATA INFRASTRUCTURE ENGINEER

Dedicated Data Infrastructure Engineer with over 6 years of experience in developing and implementing data solutions for e-commerce platforms. I have a strong background in database management, data warehousing, and data integration techniques. My work has focused on building data architectures that are both efficient and scalable, enabling business intelligence and analytics capabilities.

WORK EXPERIENCE

DATA INFRASTRUCTURE ENGINEER

E-Com Solutions

2020 - 2025

- Developed a data warehouse solution that improved reporting speed by 50%.
- Streamlined ETL processes using Talend to ensure data quality and consistency.
- Implemented data integration strategies that unified customer data from various sources.
- Collaborated with marketing teams to create targeted data-driven campaigns.
- Optimized database performance, resulting in a 30% reduction in query times.
- Documented data processes to enhance team knowledge sharing.

DATA ANALYST

Retail Insights

2015 - 2020

- Analyzed sales data to identify trends and provide insights for inventory management.
- Created dashboards using Power BI to visualize key performance indicators.
- Worked with stakeholders to gather requirements for data projects.
- Implemented data validation checks to ensure accuracy in reports.
- Supported ad-hoc data requests from various departments.
- Participated in team meetings to align data initiatives with business strategies.
