SKILLS

- Data Management
- SQL
- R
- Data Cleansing
- EHR Systems
- Data Governance

EDUCATION

BACHELOR OF SCIENCE IN HEALTH INFORMATICS, UNIVERSITY OF HEALTHCARE, 2017

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Recognized for contributing to a 20% improvement in data accuracy in patient records.
- Awarded the Innovative Employee Award for data-driven project initiatives.
- Successfully led a team in enhancing data reporting processes.

Innovative Data Infrastructure Engineer with 4 years of experience in the healthcare industry, specializing in data management and analytics. I have a strong focus on ensuring the integrity and security of sensitive data, while developing efficient data solutions that support clinical decision-making. My technical expertise includes working with electronic health record (EHR) systems and utilizing SQL and R for data analysis.

EXPERIENCE

DATA ANALYST

HealthTech Innovations

2016 - Present

- Developed data models to support clinical data analysis and reporting.
- Collaborated with healthcare providers to identify key data metrics.
- Implemented data cleansing processes that improved data quality by 35%.
- Used SQL and R for analyzing patient data and generating reports.
- Participated in data governance initiatives to ensure compliance with healthcare regulations.
- Provided training on data management best practices for staff members.

JUNIOR DATA ENGINEER

MedData Solutions

2014 - 2016

- Assisted in the development of ETL processes for patient data integration.
- Maintained data integrity by conducting regular audits and validations.
- Worked with cross-functional teams to gather requirements for data projects.
- Documented data processes for knowledge transfer and compliance purposes.
- Supported data analysis initiatives by preparing datasets for analysis.
- Contributed to the development of dashboards for clinical performance metrics.
