# MICHAEL ANDERSON

## SUPPLY CHAIN DATA ANALYST

Detail-oriented Data Operations Analyst with a focus on supply chain analytics and over 6 years of experience in optimizing inventory management processes. My background in logistics has equipped me with the skills necessary to analyze complex datasets and drive efficiencies across supply chain operations. I am proficient in leveraging data visualization tools and advanced Excel techniques to present findings to stakeholders.

## **PROFESSIONAL EXPERIENCE**

### **Logistics Solutions Inc.**

*Mar 2018 - Present*

Supply Chain Data Analyst

- Analyzed inventory data to forecast demand and optimize stock levels.
- Developed reports on supply chain performance metrics for executive review.
- Collaborated with procurement teams to improve supplier data accuracy.
- Utilized SQL for data extraction and analysis to support decision-making.
- Streamlined reporting processes, reducing time spent on data preparation.
- Implemented data-driven strategies that reduced logistics costs by 20%.

### **Global Logistics Corp.**

*Dec 2015 - Jan 2018*

Data Analyst Intern

- Assisted in the analysis of shipping data to identify bottlenecks in the supply chain.
- Created visual reports to present findings to the supply chain team.
- Supported data entry and validation efforts to ensure data accuracy.
- Engaged in cross-training sessions to learn about various supply chain functions.
- Contributed to the development of process documentation for data management.
- Participated in weekly meetings to discuss data findings and recommendations.

## **ACHIEVEMENTS**

- Achieved a 15% reduction in inventory holding costs through data analysis.
- Presented a successful case study on supply chain efficiencies at a regional conference.
- Recognized for outstanding internship performance with a full-time job offer.
