MICHAEL ANDERSON

LEAD DATA ENGINEER

Results-driven Data Platform Engineer with over 10 years of experience in the financial services sector. Expertise in creating robust data management solutions that support regulatory compliance and business intelligence. Highly skilled in database design, data warehousing, and using BI tools to convert data into strategic insights. Proven success in leading cross-functional teams to implement data-driven solutions that significantly enhance operational efficiency.

PROFESSIONAL EXPERIENCE

Global Finance Corp.   *Mar 2018 - Present*
Lead Data Engineer

- Architected a multi-tier data warehouse that increased reporting efficiency by 50%.
- Developed data pipelines using Talend to ensure timely data availability for analysis.
- Implemented data security measures to protect sensitive financial information.
- Collaborated with business analysts to define data requirements and deliver actionable insights.
- Led a team in the migration of legacy systems to a modern data platform.
- Monitored system performance and implemented optimizations to enhance user experience.

Banking Solutions LLC   *Dec 2015 - Jan 2018*
Data Analyst

- Conducted data analysis to support financial forecasting and budgeting processes.
- Created reports and visualizations using Power BI to present findings to stakeholders.
- Managed and maintained databases, ensuring data integrity and accuracy.
- Assisted in the development of data governance policies for compliance purposes.
- Collaborated with IT teams to troubleshoot data-related issues.
- Provided training to staff on data reporting tools and practices.

ACHIEVEMENTS

- Successfully led a data migration project that improved reporting accuracy by 30%.
- Received the Excellence in Data Management Award for outstanding contributions to data initiatives.
- Reduced data processing time by 40% through the implementation of efficient ETL processes.
