# MICHAEL ANDERSON

## DATA SCIENTIST

Creative Data Scientist with 4 years of experience in the financial services industry, focusing on risk analysis and fraud detection. Adept at employing machine learning algorithms to identify patterns and anomalies in vast datasets. Proven ability to collaborate with stakeholders to develop risk management strategies that safeguard assets and enhance decision-making.

## PROFESSIONAL EXPERIENCE

### **FinTech Corp.**

*Mar 2018 - Present*

#### Data Scientist

- Developed fraud detection models that reduced false positives by 30%.
- Collaborated with risk management teams to assess potential financial threats.
- Analyzed transaction data to identify suspicious patterns, enhancing security protocols.
- Created visual dashboards for stakeholders to monitor key risk indicators.
- Implemented machine learning techniques for predictive analytics.
- Trained team members on data analysis methodologies and best practices.

### **SecureBank**

*Dec 2015 - Jan 2018*

#### Junior Data Analyst

- Assisted in the development of risk assessment models.
- Conducted exploratory data analysis to identify trends and anomalies.
- Supported the fraud detection team with data cleaning and preprocessing.
- Generated reports to communicate findings to upper management.
- Participated in cross-departmental projects to improve data sharing.
- Enhanced data visualization practices using Tableau and Power BI.

## ACHIEVEMENTS

- Recognized for developing a model that improved fraud detection accuracy by 25%.
- Contributed to a project that decreased financial losses due to fraud by 15%.
- Received the Rising Star Award for exceptional performance in data analysis.
