SKILLS

- Production data management
- ERP systems
- Data analytics
- Process optimization
- Training and development
- Data governance

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR'S DEGREE IN INDUSTRIAL
ENGINEERING FROM TECHNICAL
UNIVERSITY**

ACHIEVEMENTS

- Led a project that improved production efficiency by 20% through data-driven analysis.
- Received a Company Excellence Award for outstanding contributions to data quality.
- Reduced data discrepancies in production records by 30% through effective training.

WORK EXPERIENCE

DATA STEWARD

ManufactureTech

2020 - 2025

- Implemented data quality standards that reduced production errors by 15%.
- Collaborated with production teams to analyze data trends and optimize processes.
- Utilized ERP systems to manage and report on production data.
- Developed training materials for staff on data management and reporting.
- Conducted regular data audits to ensure compliance with industry standards.
- Created visual reports to present data insights to management for decision-making.

PRODUCTION DATA ANALYST

Global Manufacturing Inc.

2015 - 2020

- Analyzed production data to support process improvement initiatives.
- Worked with engineers to ensure data accuracy in production systems.
- Documented data processes and provided recommendations for enhancements.
- Created dashboards to visualize production performance metrics.
- Participated in cross-functional teams to drive data-driven strategies.
- Trained new hires on data entry and reporting protocols.
