MICHAEL ANDERSON

DATA WAREHOUSE DEVELOPER

Experienced Data Warehouse Developer with a strong background in healthcare data systems and analytics. Over 7 years of experience in developing and managing data warehouses that support clinical and operational reporting. Adept at using complex SQL queries and visualization tools to derive insights from large datasets. Highly skilled in ensuring data compliance with regulatory standards while optimizing data flow and integrity.

PROFESSIONAL EXPERIENCE

HealthTech Solutions

Mar 2018 - Present

Data Warehouse Developer

- Designed and implemented a healthcare data warehouse supporting reporting for clinical operations.
- Utilized SQL Server and SSIS for ETL processes, ensuring compliance with HIPAA regulations.
- Developed reports and dashboards that provided critical insights into patient care metrics.
- Collaborated with data scientists to refine predictive analytics models for patient outcomes.
- Conducted data audits that improved data quality and compliance by 25%.
- Provided training workshops for clinical staff on data access and interpretation.

Wellness Analytics Group

Dec 2015 - Jan 2018

Data Analyst

- Supported the development of a data warehouse for health information management.
- Performed data cleansing and transformation tasks to ensure accuracy for reporting.
- Created SQL scripts that automated repetitive reporting tasks, saving 15 hours weekly.
- Worked with cross-functional teams to gather requirements for data reporting needs.
- Assisted in the documentation of data processes and best practices.
- Participated in user acceptance testing for new data tools and systems.

ACHIEVEMENTS

- Improved reporting turnaround time by 40% through automation of data processes.
- Awarded 'Best Innovative Project' for the development of a real-time patient dashboard.
- Enhanced data accuracy by implementing a new data governance framework.
