SKILLS

- ETL
- SQL
- Data Governance
- Oracle Data Integrator
- Analytics
- Telecommunications

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, INSTITUTE OF TECHNOLOGY, 2013

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Enhanced reporting capabilities by implementing a new data visualization tool.
- Received 'Outstanding Performance Award' for contributions to data architecture.
- Reduced data processing time by 30% through optimization of existing ETL processes.

Michael Anderson
LEAD DATA WAREHOUSE DEVELOPER

Experienced Data Warehouse Developer with over 9 years of experience in telecommunications, specializing in data architecture and analytics. Proven track record in designing and implementing data warehousing solutions that support operational and strategic decision-making. Expertise in SQL, ETL tools, and data governance, ensuring high data quality standards. Known for collaborating with IT and business units to align data strategies with organizational goals.

EXPERIENCE

LEAD DATA WAREHOUSE DEVELOPER
Telecom Dynamics
2016 - Present

- Led the design and implementation of a data warehouse to support customer analytics.
- Utilized Oracle Data Integrator for ETL processes, enhancing data processing speed by 40%.
- Implemented data quality frameworks that improved data accuracy and reliability.
- Developed SQL-based analytics solutions that provided actionable insights into customer behavior.
- Conducted performance tuning of database systems, resulting in a 50% improvement in query response times.
- Mentored junior developers and provided training on best practices in data warehousing.

DATA WAREHOUSE DEVELOPER
Connect Global
2014 - 2016

- Assisted in the development of ETL processes to integrate new data sources into the warehouse.
- Collaborated with business analysts to define and document data requirements.
- Supported the creation of dashboards for operational performance monitoring.
- Executed data cleansing processes to ensure high data quality.
- Participated in the development of training materials for end-users on data tools.
- Engaged in cross-functional meetings to align data strategies with business objectives.
