SKILLS

- Network Security
- Threat Detection
- Incident Response
- Forensics
- Security Policy
- Compliance

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE, UNIVERSITY OF TEXAS, AUSTIN, 2013

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Instrumental in reducing network security incidents by 45% through proactive measures.
- Received the DHS Outstanding Service Award for exemplary performance.
- Developed a security protocol adopted by multiple defense contractors.

Michael Anderson

NETWORK SECURITY ANALYST

Resilient Defense Cybersecurity Analyst with a strong emphasis on network security and defensive strategies. Expertise in monitoring, detecting, and responding to network threats, ensuring the integrity of critical infrastructure. Skilled in the implementation of security technologies and practices that safeguard organizational assets. Proven ability to conduct thorough investigations into security breaches and develop effective mitigation strategies.

EXPERIENCE

NETWORK SECURITY ANALYST

U.S. Department of Homeland Security
2016 - Present

- Monitored network traffic for anomalies and potential threats.
- Implemented firewall and intrusion detection systems to enhance security.
- Conducted forensic investigations into security incidents.
- Collaborated with IT teams to secure network architecture.
- Developed and maintained security documentation and policies.
- Participated in security audits to ensure compliance with federal standards.

CYBERSECURITY ENGINEER

Lockheed Martin
2014 - 2016

- Designed and implemented security solutions for defense projects.
- Conducted vulnerability assessments on network infrastructure.
- Worked with cross-functional teams to promote security best practices.
- Provided training on network security protocols to staff.
- Managed incident response for network-related security breaches.
- Developed reports for senior management on network security status.
