MICHAEL ANDERSON

LEAD DEMAND PLANNER

Accomplished Demand Planner with a distinguished career in the manufacturing sector, recognized for expertise in demand forecasting, inventory management, and supply chain optimization. Possesses a strong analytical mindset and a deep understanding of market dynamics, enabling the formulation of precise demand forecasts that align with production capabilities. Demonstrated success in utilizing advanced forecasting techniques and tools to enhance operational efficiency and reduce costs.

PROFESSIONAL EXPERIENCE

Manufacturing Dynamics — *Mar 2018 - Present*
Lead Demand Planner

- Managed end-to-end demand planning process for a portfolio of over 150 products.
- Developed advanced statistical models for accurate demand forecasting.
- Collaborated with production teams to align demand with manufacturing schedules.
- Implemented inventory optimization strategies that reduced carrying costs by 25%.
- Conducted root cause analysis on forecast variances to refine planning processes.
- Facilitated training sessions on demand planning best practices for new hires.

Industrial Supply Co. — *Dec 2015 - Jan 2018*
Demand Planner

- Created demand forecasts based on historical sales data and market analysis.
- Worked closely with procurement to ensure timely availability of materials.
- Utilized demand planning software to track and report on forecast performance.
- Participated in inventory management initiatives to reduce excess stock.
- Analyzed customer order patterns to enhance demand visibility.
- Supported the implementation of a new ERP system to streamline planning processes.

ACHIEVEMENTS

- Improved forecast accuracy by 30% within the first year of employment.
- Recognized for leading a successful inventory reduction project that saved $500,000.
- Received 'Best Team Player' award for exceptional collaboration across departments.
