EDUCATION

**DOCTOR OF DENTAL MEDICINE (DMD),
HARVARD UNIVERSITY, 2015**

ACHIEVEMENTS

- Authored a comprehensive guide on dental education practices used in local dental schools.
- Increased patient satisfaction scores by 20% through effective educational interventions.
- Recognized for outstanding contribution to community health by the American Dental Association.

WORK EXPERIENCE

CLINICAL EDUCATOR

Dental Health Institute

2020 - 2025

- Conducted clinical training for dental students, enhancing their practical skills through hands-on experience.
- Developed assessment tools to evaluate student performance and program effectiveness.
- Created educational materials that simplified complex dental concepts for patients.
- Led community outreach programs to educate underserved populations on oral health.
- Collaborated with faculty to update curriculum based on the latest dental research.
- Implemented feedback mechanisms to continually improve training sessions.

PATIENT EDUCATION COORDINATOR

Oral Health Initiative

2015 - 2020

- Designed and launched a patient education website that improved access to dental information.
- Conducted workshops on oral health for community organizations, reaching over 1,000 participants.
- Evaluated patient understanding of dental procedures through surveys and feedback.
- Created instructional videos that increased engagement with educational content.
- Trained dental office staff on effective patient communication strategies.
- Established partnerships with local health agencies to broaden outreach efforts.
