WORK EXPERIENCE

Community Outreach Coordinator

2020-2023

Healthy Smiles Network

- Developed and executed community outreach programs that increased dental awareness by 50%.
- Organized free dental screening events that served over 1,000 community members.
- Created educational materials that simplified dental health information for various age groups.
- Collaborated with local organizations to enhance program visibility and participation.
- Conducted follow-up assessments to evaluate the impact of educational interventions.
- Trained volunteers to effectively communicate oral health messages to the public.

Patient Education Advocate

2019-2020

Smile Outreach Program

- Designed educational workshops that empowered patients to take charge of their oral health.
- Conducted surveys to gather patient feedback and improve educational content.
- Developed partnerships with local schools to deliver engaging presentations on dental health.
- Utilized multimedia tools to enhance the delivery of educational messages.
- Organized community events that promoted preventive care and healthy habits.
- Assessed program effectiveness through data collection and analysis.

ACHIEVEMENTS

- Increased participation in community health events by 40% through strategic marketing efforts.
- Recognized by the local health department for outstanding contributions to public health education.
- Published a research paper on the effectiveness of community dental education programs.
