

MICHAEL ANDERSON

CLINICAL RESEARCH SPECIALIST

PROFILE

Results-oriented Dental Clinical Researcher with 7 years of experience in developing and conducting clinical trials focused on enhancing oral healthcare practices. Possessing a strong foundation in biostatistics and epidemiology, I have utilized advanced statistical methods to analyze patient data, ensuring robust and reliable outcomes. My background in dentistry informs my research, allowing me to bridge the gap between clinical practices and scientific inquiry.

EXPERIENCE

CLINICAL RESEARCH SPECIALIST

Oral Health Innovations

2016 - Present

- Designed research studies that evaluated the efficacy of new dental products.
- Conducted statistical analyses using R to interpret clinical data.
- Collaborated with dental experts to refine research methodologies.
- Managed all phases of clinical trials, from initiation to completion.
- Trained new staff on research protocols and compliance measures.
- Drafted research reports that were presented to stakeholders for review.

RESEARCH ASSOCIATE

Dental Outcomes Research Center

2014 - 2016

- Supported the development of clinical trial protocols and informed consent documents.
- Maintained patient databases and ensured data quality and accuracy.
- Assisted in the recruitment and follow-up of study participants.
- Analyzed survey data to assess patient satisfaction and treatment effectiveness.
- Participated in team meetings to discuss project updates and challenges.
- Contributed to the publication of findings in peer-reviewed journals.
