

MICHAEL ANDERSON

Pediatric Research Coordinator

Passionate Dental Clinical Researcher with 9 years of experience focused on pediatric dentistry and oral health research. My work emphasizes the importance of early intervention and preventive care in children's dental health. I have successfully developed and implemented studies that assess the impact of various treatments on pediatric patients. My collaborative approach and ability to communicate effectively with both children and parents have been instrumental in my research.

WORK EXPERIENCE

Pediatric Research Coordinator

2020-2023

Children's Dental Research Center

- Coordinated clinical studies evaluating the effectiveness of preventive dental treatments.
- Engaged with families to facilitate participation and gather feedback.
- Utilized statistical software to analyze treatment outcomes and patient satisfaction.
- Developed educational materials for parents on pediatric oral health.
- Maintained compliance with ethical guidelines throughout research processes.
- Presented research findings to healthcare professionals and stakeholders.

Clinical Research Assistant

2019-2020

Pediatric Dental Clinic

- Assisted in the design and implementation of pediatric research studies.
- Conducted follow-up interviews with parents to assess treatment effectiveness.
- Maintained accurate records of patient data and clinical outcomes.
- Supported recruitment efforts to enhance participant enrollment.
- Collaborated with dental staff to ensure research protocols were followed.
- Participated in community outreach initiatives to promote dental health awareness.

ACHIEVEMENTS

- Increased enrollment in pediatric studies by 50% through community engagement.
- Published research on pediatric dental interventions in a leading journal.
- Recognized for excellence in patient care by a national dental organization.
