MICHAEL ANDERSON

RESEARCH ASSOCIATE

Passionate Dental Health Program Specialist with a strong focus on research and policy development. Over 7 years of experience in promoting oral health through evidence-based strategies and community engagement. Skilled in conducting research studies that inform public health policies and programs. Adept at navigating complex healthcare systems to advocate for improved dental health services.

PROFESSIONAL EXPERIENCE

Public Health Institute

Mar 2018 - Present

Research Associate

- Conducted qualitative and quantitative research on dental health access and outcomes.
- Collaborated with researchers to develop studies addressing oral health disparities.
- Analyzed data using statistical software to identify trends and inform policy recommendations.
- Presented research findings at national conferences and community forums.
- Worked with local health departments to implement findings into practice.
- Published articles in peer-reviewed journals to disseminate research outcomes.

Health Advocacy Group

Dec 2015 - Jan 2018

Policy Analyst

- Analyzed state and federal policies impacting dental health access and services.
- Developed policy briefs and recommendations for stakeholders and lawmakers.
- Engaged with community members to gather input for policy development.
- Facilitated discussions on oral health issues among community partners.
- Monitored legislative developments and advocated for favorable policies.
- Secured funding for initiatives aimed at improving dental health services for low-income populations.

ACHIEVEMENTS

- Contributed to a statewide initiative that increased dental service availability by 25%.
- Recognized as a Top Researcher by the Public Health Association in 2021.
- Developed a community survey that informed local health policy changes.
