### EDUCATION

**BACHELOR OF SCIENCE IN PUBLIC HEALTH, STATE UNIVERSITY**

### ACHIEVEMENTS

- Recognized by the City Council for outstanding contributions to community health.
- Secured funding for dental health initiatives through grant writing.
- Increased awareness of oral health issues by 60% through educational campaigns.

### PROFILE

As a seasoned Dental Healthcare Educator with over 8 years of experience in community health settings, my focus has been on improving oral health literacy among diverse populations. I have successfully led educational campaigns that engage the community and promote preventive dental care. My background in public health has equipped me with the skills to assess community needs and tailor educational programs accordingly.

### EXPERIENCE

#### DENTAL HEALTH EDUCATOR

##### Community Dental Care Initiative

*2016 - Present*

- Developed and implemented community health workshops focusing on oral hygiene.
- Collaborated with schools to create dental education materials for children.
- Conducted oral health screenings and provided educational resources to underserved populations.
- Utilized social media platforms to raise awareness about dental health issues.
- Evaluated program effectiveness through community surveys, achieving a 90% positive feedback rate.
- Trained volunteers to assist in educational outreach efforts.

#### PUBLIC HEALTH EDUCATOR

##### Local Health Department

*2014 - 2016*

- Designed community health education programs to promote preventive care.
- Assessed community health needs through surveys and focus groups.
- Presented at health fairs and community events to engage the public.
