

MICHAEL ANDERSON

DENTAL IMPLANT SPECIALIST

PROFILE

With a strong foundation in dental surgery and a focus on implantology, I have dedicated my career to improving patients' dental health and aesthetics. As a Dental Implant Specialist for over 8 years, I have successfully integrated advanced technologies into my practice, ensuring that patients receive the most effective treatments available.

EXPERIENCE

DENTAL IMPLANT SPECIALIST

Premier Dental Group

2016 - Present

- Executed detailed patient evaluations to determine implant eligibility.
- Utilized CAD/CAM technology to streamline the implant design process.
- Performed surgical and post-operative procedures with a focus on patient comfort.
- Trained staff on the latest implant techniques and patient management strategies.
- Achieved a 98% success rate in implant placements over five years.
- Engaged in interdisciplinary meetings to enhance treatment outcomes.

CLINICAL INSTRUCTOR

State University Dental School

2014 - 2016

- Instructed dental students on surgical techniques related to implants.
- Developed curriculum focused on evidence-based practices in implantology.
- Supervised student-led implant placements in clinical settings.
- Conducted research on the effectiveness of different implant materials.
- Participated in community health initiatives to promote dental education.
- Co-authored a textbook chapter on advancements in implant surgery.
