MICHAEL ANDERSON

SENIOR INFECTION CONTROL SPECIALIST

Experienced Dental Infection Control Specialist with over 10 years of expertise in dental hygiene and infection prevention. Proven ability to educate dental teams and patients on the importance of infection control measures in clinical settings. Adept at conducting training workshops and developing protocols that align with state and federal regulations. Strong analytical skills enable the assessment of risks and the implementation of corrective actions.

PROFESSIONAL EXPERIENCE

City Dental Associates

Mar 2018 - Present

Senior Infection Control Specialist

- Directed the establishment of infection control policies that reduced cross-contamination by 50%.
- Trained over 30 dental professionals on infection control best practices and compliance standards.
- Conducted audits and provided feedback that improved compliance scores by 40%.
- Collaborated with clinical staff to enhance patient safety measures during procedures.
- Managed the procurement of sterilization equipment to ensure up-to-date practices.
- Created a comprehensive training program for new hires focused on infection control and safety.

Community Dental Health Center

Dec 2015 - Jan 2018

Dental Hygienist

- Implemented infection control protocols that contributed to a 30% increase in patient satisfaction scores.
- Educated patients on post-treatment care to reduce infection risks.
- Supported dentists in procedures while ensuring compliance with safety standards.
- Maintained accurate sterilization logs and documented compliance with health regulations.
- Participated in community outreach programs to raise awareness about oral health and infection control.
- Assisted in developing patient education materials regarding infection prevention practices.

ACHIEVEMENTS

- Awarded 'Infection Control Champion' by the local dental association for outstanding contributions.
- Successfully led a project that decreased the incidence of post-operative infections by 15%.
- Authored an article on infection control practices published in a respected dental journal.
