Michael Anderson

PUBLIC HEALTH PROGRAM MANAGER

Innovative Dental Outreach Specialist with over 8 years of experience in public health and community dentistry. I have a proven track record of developing comprehensive outreach strategies that effectively address oral health disparities in underserved communities. My expertise includes project management, health education, and stakeholder engagement. I am passionate about implementing evidence-based programs that promote oral health literacy and access to care.

EXPERIENCE

PUBLIC HEALTH PROGRAM MANAGER

Oral Health Coalition

2016 - Present

- Managed statewide dental outreach programs impacting over 10,000 residents.
- Developed strategic partnerships with community organizations to enhance service delivery.
- Led a team in executing health education initiatives that improved oral health literacy by 40%.
- Conducted evaluations and analyzed data to measure program effectiveness.
- Presented findings to policymakers to advocate for improved dental health policies.
- Secured funding for new initiatives through grant writing and stakeholder engagement.

COMMUNITY OUTREACH SPECIALIST

Healthy Smile Project

2014 - 2016

- Facilitated outreach efforts targeting families in low-income neighborhoods.
- Organized educational workshops that reached over 1,500 participants annually.
- Developed community surveys to assess oral health needs and barriers to care.
- Collaborated with local schools to promote oral health programs.
- Trained volunteers to assist in outreach activities and health fairs.
- Tracked program metrics to report on successes and areas for improvement.
