PROFILE

Results-driven Dental Public Health Specialist with a focus on research and program implementation. Over 10 years of experience in public health, emphasizing the importance of preventive dental care in marginalized communities. Expertise in designing and evaluating health programs that address oral health disparities. Proven ability to analyze data to inform decision-making and policy development.

EXPERIENCE

RESEARCH ANALYST IN DENTAL PUBLIC HEALTH

National Institute of Dental Research

2016 - Present

- Conducted extensive research on the effectiveness of oral health interventions across various demographics.
- Analyzed data trends to identify areas of need for targeted health initiatives.
- Prepared reports and presentations for stakeholders to communicate findings and recommendations.
- Collaborated with cross-functional teams to design studies aimed at improving public health policies.
- Presented research findings at national conferences, enhancing visibility of the organization.
- Contributed to grant proposals resulting in funding for new public health projects.

PUBLIC HEALTH PROGRAM MANAGER

Healthy Smiles Coalition

2014 - 2016

- Oversaw the implementation of citywide dental health programs, serving over 10,000 residents.
- Developed educational materials that improved public understanding of dental hygiene practices.
- Organized community workshops that trained over 300 participants in preventive dental care.
- Negotiated partnerships with local businesses to sponsor dental health initiatives.
- Monitored program progress and conducted evaluations to ensure alignment with health objectives.
- Led a team of health educators to deliver impactful outreach services across multiple locations.
