SKILLS

- Oral microbiology
- Data analysis
- Laboratory techniques
- Research collaboration
- Scientific writing
- Statistical software

EDUCATION

**MASTER OF SCIENCE IN MICROBIOLOGY,
UNIVERSITY OF HEALTH SCIENCES, 2017**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Published 3 articles on oral microbiology in leading scientific journals.
- Presented at the International Conference on Oral Health, gaining recognition for research.
- Improved laboratory efficiency by developing new sample processing protocols.

Michael Anderson

ORAL MICROBIOLOGY RESEARCHER

As a dental researcher with over 4 years of experience, I specialize in the study of oral microbiology and its relationship with systemic health. My research focuses on understanding how oral bacteria influence conditions such as cardiovascular disease and diabetes. I am passionate about bridging the gap between dental health and overall health, and I strive to contribute to the growing body of evidence that supports this connection.

EXPERIENCE

ORAL MICROBIOLOGY RESEARCHER

Institute for Oral Health Research

2016 - Present

- Conducted research on the link between oral bacteria and systemic diseases.
- Utilized microbiological techniques to analyze bacterial samples from patients.
- Collaborated on research projects with medical professionals to study cross-disciplinary impacts.
- Published findings in peer-reviewed journals, contributing to the scientific community.
- Presented research at oral health conferences, raising awareness of systemic connections.
- Maintained laboratory equipment and ensured compliance with safety protocols.

RESEARCH ASSISTANT IN MICROBIOLOGY

University Microbiology Lab

2014 - 2016

- Assisted in studies investigating the oral microbiome's role in health and disease.
- Collected and processed clinical samples for analysis.
- Conducted statistical analysis using R to interpret research data.
- Supported the development of research protocols and project documentation.
- Participated in departmental seminars to share research findings.
- Collaborated with peers to design experiments for ongoing studies.
