### SKILLS

- Design Strategy
- User-Centered Design
- Agile Development
- Data Analysis
- Mentorship
- Collaboration

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**MASTER OF ARTS IN INTERACTION  
DESIGN, UNIVERSITY OF WASHINGTON**

### ACHIEVEMENTS

- Achieved a 50% reduction in design iteration times through the implementation of a new design system.
- Received 'Excellence in Design' award at the 2023 Global Design Summit.
- Published influential research on design systems in leading design journals.

### WORK EXPERIENCE

#### DESIGN SYSTEMS STRATEGIST

Global Tech Enterprises

2020 - 2025

- Developed a comprehensive design system that streamlined product development cycles.
- Collaborated with product and engineering teams to align design initiatives with business goals.
- Conducted data analysis to measure the effectiveness of design solutions.
- Facilitated design critiques to ensure adherence to design standards.
- Mentored junior designers in best practices and design methodologies.
- Created detailed design specifications to guide development processes.

#### SENIOR INTERACTION DESIGNER

Innovative Solutions Group

2015 - 2020

- Designed user interactions for a suite of digital products, enhancing overall usability.
- Collaborated with UX researchers to incorporate user feedback into design iterations.
- Created interactive mockups to visualize concepts for stakeholder review.
- Led workshops to promote the use of design systems across teams.
- Managed timelines and deliverables to ensure project milestones were met.
- Documented design processes to establish a repository of knowledge for future projects.
