MICHAEL ANDERSON

SENIOR AGRICULTURAL ECONOMIST

Dedicated Development Economist with a focus on agricultural economics and rural development. Over 12 years of experience working with various NGOs and governmental organizations to enhance food security and improve the livelihoods of rural populations. Expertise in conducting economic impact assessments and designing agricultural policies that promote sustainable practices. Proven ability to collaborate with farmers and local communities to develop strategies that support economic growth and resilience against climate change.

PROFESSIONAL EXPERIENCE

Food and Agriculture Organization

Mar 2018 - Present

Senior Agricultural Economist

- Led projects aimed at improving agricultural productivity through economic analysis and policy development.
- Conducted field assessments to evaluate the impact of agricultural programs on local economies.
- Collaborated with farmers to implement sustainable farming practices that increased yield by 15%.
- Utilized GIS tools to analyze land use and inform agricultural policy decisions.
- Presented findings to stakeholders, advocating for policy changes that benefit rural communities.
- Trained local staff on data collection and analysis methodologies.

International Fund for Agricultural Development

Dec 2015 - Jan 2018

Economic Consultant

- Provided economic analysis for development projects focusing on rural infrastructure and market access.
- Conducted cost-benefit analyses to assess agricultural investment opportunities.
- Engaged with local communities to gather insights and ensure project relevance.
- Developed economic models to predict the impacts of climate change on agriculture.
- Collaborated with international teams to design and implement training programs for farmers.
- Authored reports that influenced funding for rural development initiatives.

ACHIEVEMENTS

- Implemented an agricultural program that improved food security for over 10,000 households.
- Published influential research on the economic impact of climate change on agriculture.
- Recognized by the FAO for contributions to sustainable farming practices.
