- French

EDUCATION

BACHELOR OF SCIENCE IN
INFORMATION TECHNOLOGY, TECH
UNIVERSITY, 2018

ACHIEVEMENTS

- Successfully reduced average deployment time from 3 hours to 1 hour.
- Implemented a cost-saving strategy that reduced cloud expenses by 20%.
- Contributed to a project that earned the company a top innovation award in 2022.

PROFILE

Dedicated DevOps Software Engineer with over 5 years of hands-on experience in automating complex deployment processes and ensuring high availability of applications. Having worked extensively in startups, I bring a unique blend of agility and innovation to the table, leveraging tools like Docker, Jenkins, and Kubernetes to streamline operations. My strong background in scripting languages such as Python and Bash enables me to create efficient automation solutions.

EXPERIENCE

DEVOPS ENGINEER

Startup Solutions Co.

2016 - Present

- Automated deployment processes using Jenkins, decreasing release time by 40%.
- Managed Docker containers for development and production environments.
- Created monitoring solutions using Prometheus and Grafana, enhancing system visibility.
- Collaborated with developers to integrate CI/CD into the software development lifecycle.
- Improved application security by implementing best practices and regular audits.
- Provided technical support and troubleshooting for production issues.

JUNIOR DEVOPS ENGINEER

Innovate Tech LLC

2014 - 2016

- Assisted in the migration of on-premises applications to AWS.
- Supported the setup of CI/CD pipelines, improving code integration speed.
- Wrote scripts for automation tasks, saving the team significant manual effort.
- Participated in daily stand-ups and sprint planning meetings, contributing to Agile processes.
- Maintained documentation for DevOps processes and systems.
- Engaged in continuous learning and training on new DevOps tools and methodologies.
