- Recognized for launching the most successful virtual program in the organization's history.
- Received the Innovation Award for outstanding contributions to tech integration in programming.
- Increased online engagement by 200% through strategic marketing initiatives.

DIGITAL PROGRAM COORDINATOR

Dynamic Devotional Program Coordinator specializing in the integration of technology in spiritual programming. Demonstrated success in creating immersive digital experiences that enhance participant engagement and expand reach. Expertise in utilizing various digital platforms to deliver content and facilitate community interactions. Strong background in project management, ensuring that programs are executed efficiently and effectively.

WORK EXPERIENCE

DIGITAL PROGRAM COORDINATOR
Virtual Faith Community
2020 - 2025

- Developed virtual worship services that engaged over 1,000 participants weekly.
- Utilized live streaming technology to enhance community interaction during services.
- Created online resources that supported spiritual education and engagement.
- Implemented feedback loops to continuously improve virtual programming.
- Managed a team of tech volunteers to ensure seamless online experiences.
- Analyzed data to assess participant engagement and program effectiveness.

PROGRAM DEVELOPER
FaithTech Innovations
2015 - 2020

- Designed and launched a mobile app for devotional content, achieving 5,000 downloads in the first month.
- Conducted webinars on integrating technology in spiritual practices, attracting global participants.
- Created instructional videos that enhanced understanding of spiritual concepts.
- Collaborated with software developers to enhance user experience on digital platforms.
- Organized hackathons to engage youth in developing tech solutions for community needs.
- Evaluated program outcomes through analytics and participant feedback.
