SKILLS

- GitHub Actions
- Docker
- Snyc
- CI/CD
- Secure Coding
- Security Training
- Incident Response
- Documentation

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE, REGIONAL UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Recognized for implementing a security automation tool that decreased vulnerability response time by 30%.
- Awarded 'Outstanding Contributor' for enhancing application security practices.
- Successfully led training sessions that improved developer awareness of security threats.

Michael Anderson

DEVSECOPS ENGINEER

Innovative DevSecOps Engineer with a strong background in software development and security, bringing over 4 years of experience specializing in application security. Experience in implementing security best practices in the software development lifecycle, ensuring that security is integral to application design and deployment. Proficient in using tools like GitHub Actions, Docker, and Snyc to automate security checks and enhance compliance.

EXPERIENCE

DEVSECOPS ENGINEER

AppSecure Solutions

2016 - Present

- Integrated security checks into CI/CD pipelines using GitHub Actions, resulting in a 40% reduction in production vulnerabilities.
- Automated dependency scanning for vulnerabilities, improving application security posture.
- Collaborated with development teams to create secure coding standards, reducing security weaknesses.
- Conducted security training for developers, enhancing knowledge of secure coding practices.
- Participated in incident response drills, improving the team's readiness for security breaches.
- Developed and maintained security documentation, ensuring clarity and compliance.

SOFTWARE DEVELOPER

Tech Innovators Inc.

2014 - 2016

- Designed and developed secure applications, implementing best practices throughout the development lifecycle.
- Collaborated with security teams to address vulnerabilities during the development phase.
- Engaged in code reviews, providing feedback on security implications.
- Assisted in the migration of legacy applications to secure frameworks.
- Created technical documentation for applications, ensuring security considerations were included.
- Participated in Agile methodologies, enhancing team collaboration.
