SKILLS

- Microbiology
- Infectious diseases
- Quality control
- Team collaboration
- Data analysis
- Laboratory techniques

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN MICROBIOLOGY, UNIVERSITY OF SCIENCE AND MEDICINE

ACHIEVEMENTS

- Recognized for outstanding performance in laboratory quality assurance in 2021.
- Improved turnaround times for microbiological tests by 30% through protocol enhancements.
- Presented research on antibiotic resistance trends at a national microbiology conference.

WORK EXPERIENCE

MICROBIOLOGY LABORATORY SCIENTIST

General Hospital

2020 - 2025

- Performed microbiological testing including culture and sensitivity testing on patient samples.
- Developed and implemented new microbiology protocols, enhancing lab efficiency by 25%.
- Collaborated with infectious disease specialists to interpret lab results and guide treatment.
- Conducted training sessions for staff on microbiological techniques and safety protocols.
- Ensured compliance with laboratory accreditation standards during audits.
- Participated in outbreak investigations, providing critical lab support for public health responses.

LABORATORY TECHNICIAN

City Medical Center

2015 - 2020

- Assisted in routine laboratory testing and maintained accurate records of sample processing.
- Monitored laboratory equipment functionality and performed regular maintenance.
- Supported the microbiology team in sample preparation and analysis.
- Ensured timely reporting of lab results to healthcare providers.
- Participated in quality assurance initiatives to maintain high testing standards.
- Contributed to research projects focused on antibiotic resistance.
