MICHAEL ANDERSON

RADIOLOGY ASSOCIATE

Compassionate Diagnostic Radiographer with 3 years of experience in a fast-paced hospital setting. My focus is on providing exceptional care while performing diagnostic imaging procedures, particularly X-rays and CT scans. I thrive in high-pressure environments and am adept at managing multiple tasks without compromising quality. My technical proficiency in operating radiologic equipment enables me to deliver accurate diagnostic results promptly.

PROFESSIONAL EXPERIENCE

Metro General Hospital

Mar 2018 - Present

Radiology Associate

- Performed daily X-ray and CT imaging for a diverse patient population, maintaining high standards of quality.
- Assisted in the development of patient care protocols that improved service delivery times.
- Monitored patients during procedures, ensuring their safety and comfort at all times.
- Provided education to patients regarding imaging procedures, promoting understanding and reducing anxiety.
- Collaborated with radiologists to ensure accurate interpretation of imaging studies.
- Contributed to departmental initiatives aimed at enhancing patient care and operational efficiencies.

Central Health Systems

Dec 2015 - Jan 2018

Radiologic Technologist Intern

- Assisted in various radiologic procedures under supervision, gaining hands-on experience in imaging techniques.
- Maintained cleanliness and organization of the radiology department, ensuring a safe environment.
- Engaged with patients pre- and post-procedure to gather medical histories and explain processes.
- Learned to operate radiographic equipment, achieving proficiency in basic imaging tasks.
- Participated in departmental meetings to discuss case studies and imaging best practices.
- Supported quality control efforts by ensuring proper documentation of imaging results.

ACHIEVEMENTS

- Recognized for outstanding patient care in the hospital's annual awards.
- Achieved a 90% success rate in patient comfort during imaging procedures.
- Participated in a research project on the impacts of patient education in radiology.
