EDUCATION

BACHELOR OF SCIENCE IN HEALTH SCIENCES, UNIVERSITY OF HEALTH

ACHIEVEMENTS

- Awarded 'Technologist of the Year' for exceptional patient care and teamwork.
- Implemented a training program that improved staff efficiency and reduced onboarding time by 30%.
- Contributed to a project that enhanced patient education materials, resulting in better treatment adherence.

PROFILE

Results-driven Dialysis Technologist with over 5 years of specialized experience in high-volume dialysis centers. I possess a strong background in patient care and technical proficiency in dialysis procedures and equipment management. My experience includes working in both acute and chronic dialysis settings, where I have honed my skills in patient monitoring, troubleshooting equipment issues, and ensuring compliance with health regulations.

EXPERIENCE

DIALYSIS TECHNOLOGIST

City Dialysis Center

2016 - Present

- Administered hemodialysis and peritoneal dialysis treatments to a diverse patient base.
- Monitored and recorded patient vitals before, during, and after treatments, ensuring safety and comfort.
- Collaborated with nephrologists and nursing staff to refine treatment plans based on patient progress.
- Educated patients on lifestyle modifications and treatment compliance to enhance health outcomes.
- Managed inventory of dialysis supplies, reducing costs by 10% through effective resource allocation.
- Participated in quality improvement initiatives that improved patient care protocols.

DIALYSIS TECHNICIAN

Community Health Services

2014 - 2016

- Supported the delivery of dialysis treatments by preparing machines and ensuring equipment readiness.
- Maintained patient records and documentation for regulatory compliance and quality assurance.
- Trained new staff on safety protocols and patient care standards to uphold quality.
- Conducted patient assessments and reported adverse changes to the healthcare team.
- Assisted in patient transportation and logistical needs during treatment sessions.
- Facilitated communication between patients and healthcare providers to ensure consistent care.
