Michael Anderson

DIALYSIS TECHNOLOGIST

Enthusiastic and detail-oriented Dialysis Technologist with 4 years of experience in providing compassionate care in outpatient dialysis centers. My background includes a strong focus on patient education and support, ensuring that each patient feels empowered and informed about their treatment. I am adept at operating dialysis machines and performing routine maintenance, as well as monitoring patients throughout their sessions.

EXPERIENCE

DIALYSIS TECHNOLOGIST

Riverfront Dialysis Center

2016 - Present

- Administered dialysis treatments to patients, ensuring adherence to safety protocols.
- Monitored patient vitals and provided immediate response to any changes in condition.
- Educated patients on the dialysis process and aftercare, enhancing compliance.
- Maintained equipment and supplies, ensuring readiness for treatment sessions.
- Collaborated with healthcare professionals to create individualized care plans.
- Participated in team meetings to discuss patient progress and treatment modifications.

DIALYSIS TECHNICIAN

Northside Health Clinic

2014 - 2016

- Assisted in patient assessments and preparation for dialysis treatments.
- Maintained accurate documentation of patient treatments and responses for compliance.
- Supported patient education initiatives, promoting understanding of renal health.
- Facilitated communication between patients and healthcare providers regarding treatment plans.
- Performed routine checks on dialysis machines, ensuring optimal operation.
- Contributed to a patient satisfaction survey project that improved feedback collection.
