Detail-oriented Digital Evidence Analyst with a specialization in mobile device forensics and data recovery. Expertise in utilizing advanced forensic techniques to extract and analyze data from smartphones and tablets. Recognized for a thorough understanding of mobile operating systems and applications, ensuring comprehensive evidence recovery. Committed to maintaining the integrity of digital evidence throughout the investigative process.

WORK EXPERIENCE

Mobile Forensics Analyst
2020-2023

Mobile Evidence Solutions

- Conducted forensic examinations on mobile devices to extract critical data.
- Utilized tools such as Oxygen Forensics and Cellebrite for data analysis.
- Maintained comprehensive documentation of forensic processes and findings.
- Collaborated with law enforcement to provide expert analysis for investigations.
- Trained team members on mobile forensic techniques and tools.
- Participated in case reviews to ensure thorough investigative practices.

Digital Evidence Technician
2019-2020

Tech Forensics Inc.

- Assisted in the recovery of data from various digital devices.
- Utilized forensic imaging tools to create exact copies of evidence.
- Documented all evidence handling procedures in detail.
- Engaged in training sessions to improve technical skills.
- Collaborated with forensic teams to enhance analysis processes.
- Provided technical support to clients regarding data recovery issues.

ACHIEVEMENTS

- Successfully recovered data from over 200 mobile devices for investigations.
- Developed a training program for new analysts on mobile forensic techniques.
- Recognized for excellence in evidence analysis by industry peers.
