

MICHAEL ANDERSON

DIGITAL FORENSICS INVESTIGATOR

PROFILE

Dedicated Digital Forensics Analyst with a strong background in law enforcement and criminal justice, bringing over 5 years of experience in investigating digital crimes and cyber threats. My career began in the police department, where I specialized in cybercrime units, and I have since transitioned to the private sector, where I apply my investigative skills to support corporate clients.

EXPERIENCE

DIGITAL FORENSICS INVESTIGATOR

City Police Department

2016 - Present

- Conducted forensic examinations on digital devices related to criminal investigations, ensuring adherence to legal standards.
- Collaborated with detectives to identify and analyze digital evidence necessary for case resolution.
- Utilized Autopsy and FTK to extract and analyze data, contributing to the successful prosecution of several cybercrime cases.
- Designed and led workshops on cybercrime awareness, educating officers on the latest digital threats.
- Maintained chain of custody documentation for all evidence collected, ensuring integrity in legal proceedings.
- Prepared detailed reports of findings for court presentations, resulting in a 100% conviction rate of cases presented.

JUNIOR DIGITAL FORENSICS ANALYST

SecureTech Solutions

2014 - 2016

- Assisted senior analysts in conducting investigations of data breaches and cyber incidents, gaining hands-on experience in forensic techniques.
- Performed data recovery and analysis using forensic tools, contributing to the resolution of high-profile cases.
- Participated in the development of incident response strategies and protocols for clients.
- Conducted research on emerging cyber threats to inform preventive measures and training programs.
- Collaborated with cross-functional teams to ensure comprehensive investigations and reporting.
- Maintained accurate records of all forensic activities, supporting compliance with regulatory requirements.
