MICHAEL ANDERSON

LEAD DIGITAL LEARNING RESEARCHER

With over 10 years of experience in digital learning research, I have developed a deep understanding of how technology can transform adult education and workforce training. My career has been dedicated to evaluating online learning platforms and their effectiveness in promoting skill acquisition and professional development. By employing both qualitative and quantitative research methods, I have been able to provide actionable insights to educational institutions and corporate training programs.

PROFESSIONAL EXPERIENCE

Global Training Solutions

Mar 2018 - Present

Lead Digital Learning Researcher

- Directed research projects aimed at evaluating the impact of online training programs on employee performance.
- Utilized learning management systems (LMS) data to analyze course effectiveness and learner engagement.
- Designed surveys and conducted interviews to gather feedback from participants on their learning experiences.
- Collaborated with instructional designers to enhance course materials based on research findings.
- Presented insights to stakeholders to inform strategic decisions on training investments.
- Published articles in industry journals about trends in adult learning and technology integration.

Workplace Education Network

Dec 2015 - Jan 2018

Digital Learning Evaluator

- Conducted evaluations of various online learning platforms used for workforce development.
- Collaborated with corporate partners to assess training needs and align digital solutions accordingly.
- Analyzed learner performance data to measure the effectiveness of training interventions.
- Facilitated focus groups with learners to gain insights into their experiences with digital learning tools.
- Developed comprehensive evaluation reports that influenced the adoption of new learning technologies.
- Engaged in professional development activities to stay current on emerging trends in digital education.

ACHIEVEMENTS

- Awarded 'Excellence in Research' for contributions to adult learning methodologies.
- Increased learner satisfaction ratings by 30% through targeted improvements in online training programs.
- Served on advisory boards for national initiatives focused on the future of digital learning.
